

Ads Revenue – Medium

As consumers spend more time at home, during COVID-19, there has been rapid increase in e-commerce activity. From buying to selling products online, Internet has over-taken TV revenues. While TV revenues were on top in 2012, by 2020, their revenues dropped to 25%.

While newspapers were our initial form of getting updates around the world, they have dropped down very low due to digital expansion.
